

## Meeting 3 - 21.10.25

### Progress (as of 20.10.25)

- Started to use github for planning (in the form of issues)
- OpenCV and Mediapipe support
- Thought about what motions we would need
- GUI with toggles to enable features
  - Also has an indicator for the detected gesture

### What still needs to be done

- PyAutoGUI still needs to be implemented
- We still need to recognize motions

### This is our program
